

Rave Reviews for Jobina Ponce's Skokie Kids Day Care

Date: April 17th, 2009

Dear Parents:

Most parents who send their children to daycare do so because they have to. Which daycare to send them to? It is a very difficult decision. I have two children that go to Jobina Ponce's Daycare. They both started going at the age of three months. My oldest is 3 1/2 years and my youngest is 2 years old and they love it there. Even on the weekends they ask if they are going to daycare.

I love the individual attention they get along with the at home atmosphere. They receive home cooked meals everyday and are provided with quality care and attention. Part of the daily routine is work time, when classroom type work is done. Not only have they learned everyday necessities, but also Spanish which will only progress as they get older and become a strong point later in life.

I'm fortunate to have found Jobina Ponce's Daycare. It gives me great piece of mind knowing my children are well taken care of while I'm at work.

Thanks, Lori Wentling.
